

IPRIS GmbH in Basel, Switzerland

**Expert in the management of Intellectual Property Rights with Swiss reliability
at an affordable prize**

Filing of International (PCT), Regional (EP) and National Patent Applications

Together with its partner organizations IPRIS offers worldwide filings of international PCT, regional or national patent applications and respective prosecution. This also includes the conversion of PCT/EP patent applications into regional and/or national phases. In this context IPRIS has established a network of international patent law firms and translation offices and can thus offer to its clients very competitive prices and conditions.

IPRIS' flat fee of 1'000.00 CHF per country includes all costs for administering the patent applications during the initial first year of filing, i.e. there are no additional costs for mail, fax, phone and copies or the correspondence with the patent offices or the corresponding representatives.

In all countries, the designation of a representative in the respective country is mandatory. Only the national representative is authorized to act in front of the local patent office.

IPRIS will serve as correspondence address for the patent offices where possible and applicable as well as for the corresponding representatives.
The correspondence and the official communications will then be forward to the applicant.

If requested IPRIS can also make comments and suggestions to the office actions and the correspondence of the corresponding representatives or initiate the necessary steps.

IPRIS' hourly rate for this kind of service is 300 CHF. The additional fees of the corresponding representatives are not included.

Please contact IPRIS if you would like to reduce your patent maintenance cost. We will be glad to provide you with a concrete and binding offer.
